

Enabling District Tablets for Google Play for Education

The following steps can be done on either the tablet or a computer. If you're signed in on a tablet, begin with step 3.

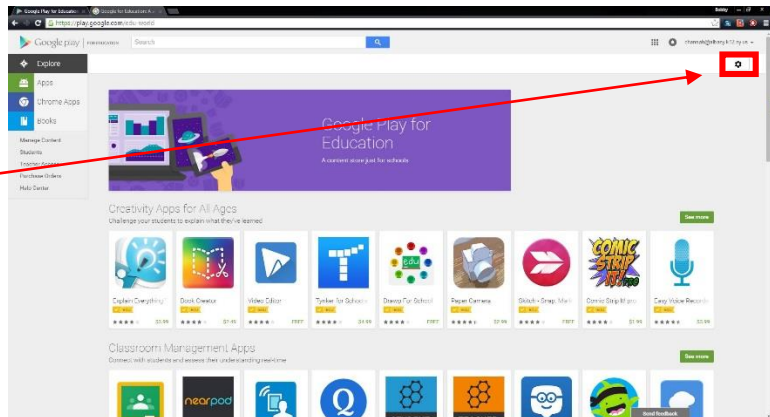

1. Go to Google.com and click "Sign in" on the top right.

2. Sign in to Google using your full district email and your district password.

3. Go to play.google.com/edu and click on the settings sprocket/gear on the upper right side of the page.

4. Under "Accept Play For Education Apps", click in the box next to "Enable". A check mark should appear indicating that the tablet can now accept apps from the Play for Education store.
